

# Eggs and Bacon Halloween Costume

Written By: Meg Allan Cole

## TOOLS:

- [Sewing machine or fabric glue \(1\)](#)
- [felt \(2 yards of maroon, 1 1/2 yards of white, 1 square foot of yellow, and long strips of pink\) \(1\)](#)

## SUMMARY

I am going to show you how to whip up an easy costume using very basic sewing skills.

## Step 1 — Eggs and Bacon Halloween Costume

- In colored chalk, sketch out a cracked egg onto your white felt and cut it out.

## Step 2

- Mark and cut an X for your head to go through.

## Step 3

- Free hand or trace an egg yolk that measures about 12" in diameter. Cut it out and pin and sew it to the belly area of your egg white.

## Step 4

- Cut a 5 1/2" x 1 1/2" piece of maroon felt and add wavy lines to the sides.

## Step 5

- Cut two wavy lines out of your pink felt and place one end a couple of inches below the neck hole and the other end a couple of inches above the end of the bacon. Sew on your bacon fat.

## Step 6

- Add a mini bacon by following the same steps, but scaling down the bacon to fit your small fry.

## Step 7

- Add a few trophies and you are Breakfast of Champions.

With the most basic ability to sew or glue fabric together you can hand make a fun costume for Halloween.
